

Clark Nelson

Full Stack Developer from Chicago, Illinois

SUMMARY

I am an intermediate web developer with five years experience developing and designing responsive websites using modern JavaScript frameworks.

I'm fascinated by the evolution of the internet and the technologies that we use to access it. I believe in simple interfaces that provide powerful function.

EDUCATION

B.S. Computer Science

DePaul University May 2016

EXPERIENCE

Freelance Front-end Development

December 2014 - December 2016

Worked solo then in a small team to create Wordpress sites for clients while finishing college.

Student at Designation.io

July 2014 - August 2014

Had an opportunity to learn more about JavaScript, UX, UI, and Node at this summer bootcamp

Intern at Neoteric Design

June 2014 - July 2014

Mentors who taught me design while I created a Ruby on Rails project management application
