Clark Nelson

Web Developer and Designer

SUMMARY

With five years experience creating responsive websites, I specialize in front-end development using modern JavaScript frameworks.

I'm interested in the evolution of the internet and technology. I believe in simple interfaces that provide powerful functionality.

EDUCATION

B.S. Computer Science   DePaul University May 2016

EXPERIENCE

Freelance Front-end Development   December 2014 - December 2016
Worked solo then in a small team to create Wordpress sites for clients while finishing college.

Student at Designation.io   July 2014 - August 2014
Had an opportunity to learn more about JavaScript, UX, UI, and Node at this summer bootcamp

Intern at Neoteric Design   June 2014 - July 2014
Mentors who taught me design while I created a Ruby on Rails project management application
